### SKILLS

- ❖ Java, Kotlin
- ❖ Android Development
- ❖ SpringBoot

### EDUCATION

- ❖ B Tech | CSE (AI & ML) | KIET Group of Institutions CGPA: 8.65 | 2025
- ❖ XII (CBSE) | PCM | Chinmaya Vidyalaya 88.6% | 2020

### ACADEMIC PROJECTS

- ❖ **BusyBee: A complete parenting package**
  - I have made two android apps, connected through one database, targeting children of 6 to 12 years of age, wherein one can give rewards to their child on completion of certain tasks.
  - Technologies - JAVA, XML, Firebase, Firestore.
  - Link: <https://github.com/aryanmishra29/BusyBee>
- ❖ **employee-management-system**
  - I have made a web app that helps the user to manage the employee data through CRUD operations.
  - Technologies - Spring Boot, PostgreSQL, ReactJS, Tailwind CSS
  - Link: <https://github.com/aryanmishra29/employee-management-system>

### EXPERIENCE

- ❖ **Java Developer Intern | BrahmGAN** (May '23 - July '23)

In the 3 months period, I learnt the microservices architecture and contributed to the scalable code of the company in Java language under the Spring Boot framework.
- ❖ **Student Intern | YBI Foundation** (Aug '22)

I learnt basics of Python and various libraries in Python i.e Pandas, Numpy, sklearn, Seaborn and implemented the Regression and Classification analysis on various datasets, hence learning about Accuracies and Confusion Matrix

### POSITION OF RESPONSIBILITY

- ❖ **President | DevUp, KIET Group Of Institutions** (Present)

I have founded the club along with my team and under the guidance of my professors and organized bootcamps for various technologies.
- ❖ **Core Team | Innogeeks, KIET Group Of Institutions** (Present)

Being a part of Innogeeks, I learnt Android Development. As a coordinator and mentor I have taught the same to my juniors.
